Warehouse Technology Group

A unique collaboration of leading suppliers to warehouse and logistics companies - a one-stop-shop for all your warehouse needs

Knapp UK

KNAPP is a leading global supplier of warehouse automation solutions, with particular expertise in the e-commerce, retail, fashion, food and pharmaceuticals sectors. Our range includes the market-leading OSR Shuttle™ storage and retrieval system.

Union Industries

Union manufacture, install & maintain a range of Rapid Roll High Speed Doors for use in all industrial environments to reduce heat loss, improve efficiency, assistance with environmental control and save energy.

Lista

True to its motto, "Making Workspace Work", Lista, as the leading supplier of workshop equipment and storage systems, transforms rooms into functional workplaces.

A-Safe

A-SAFE polymer barriers protect the logistics chain:

- Strength
- Guidance
- Accident prevention

Improve facility performance, superior organisation, save money on maintenance, and provide vehicle/personnel segregation.

Narrow Aisle

Narrow Aisle Ltd is one of the world's foremost independent manufacturers of very narrow aisle (VNA) equipment. Narrow Aisle manufactures and markets the Flexi range of warehouse trucks. The Flexi AC articulated warehouse truck dramatically improves storage, handling and customer order assembly efficiency within manufacturing, warehousing and logistics operations.

TouchStar Technologies

Design and supply of rugged mobile devices, TouchStar Solutions also include sophisticated software for a wide variety of warehouse and supply chain applications, including goods receiving, picking, put-away, replenishment and dispatch.

Chess Logistics Technology

Warehouse management solutions with integrated real time technology. Systems are designed to deliver accuracy, efficiency and discipline in your warehouse.

Troax

Troax is a global, market leading manufacturer of fully compliant and cost effective mesh panel systems to protect; People, Property and Processes, as well as single and double skin steel partitioning for all applications.

Interroll

Market leaders in gravity pallet and carton flow storage and picking solutions. Increasing picking performance and storage density with a ROI within 2 years

Luxonic Lighting

Manufacturers of warehouse lighting products, using the latest LED technology. Luxonic offer a survey and consultation service to ensure lighting schemes which improve energy efficiency.

Dexion

Dexion is a leading manufacturer and supplier of innovative and efficient warehouse storage solutions, from shelving systems and small parts storage to storage machines and pallet racking systems.

Nu-Form Fire UK

A leading specialist fire protection contractor serving the UK and Europe for fixed fire protection systems including sprinklers, foam systems, hydrants and water spray systems.

Codeway

Complete systems – hardware, software, and consumables – for identification, tracking and control. Label printers, labelling machinery, auto-id technology, bar code, 2D code and RFID equipment.

ASG Services

Labelling and safety products; industrial floor marking and painting systems for the warehousing and distribution industries.

Sovex

Our innovative vehicle loader and conveyor solutions improve operational efficiencies and minimise cost. Bespoke features further boost productivity, offering robust inbound and outbound handling of product regardless of the vehicle profile or warehouse properties.

AETNA Group

The world's largest manufacturer of semiautomatic and fully automatic pallet stretch wrapping equipment.

Fimap

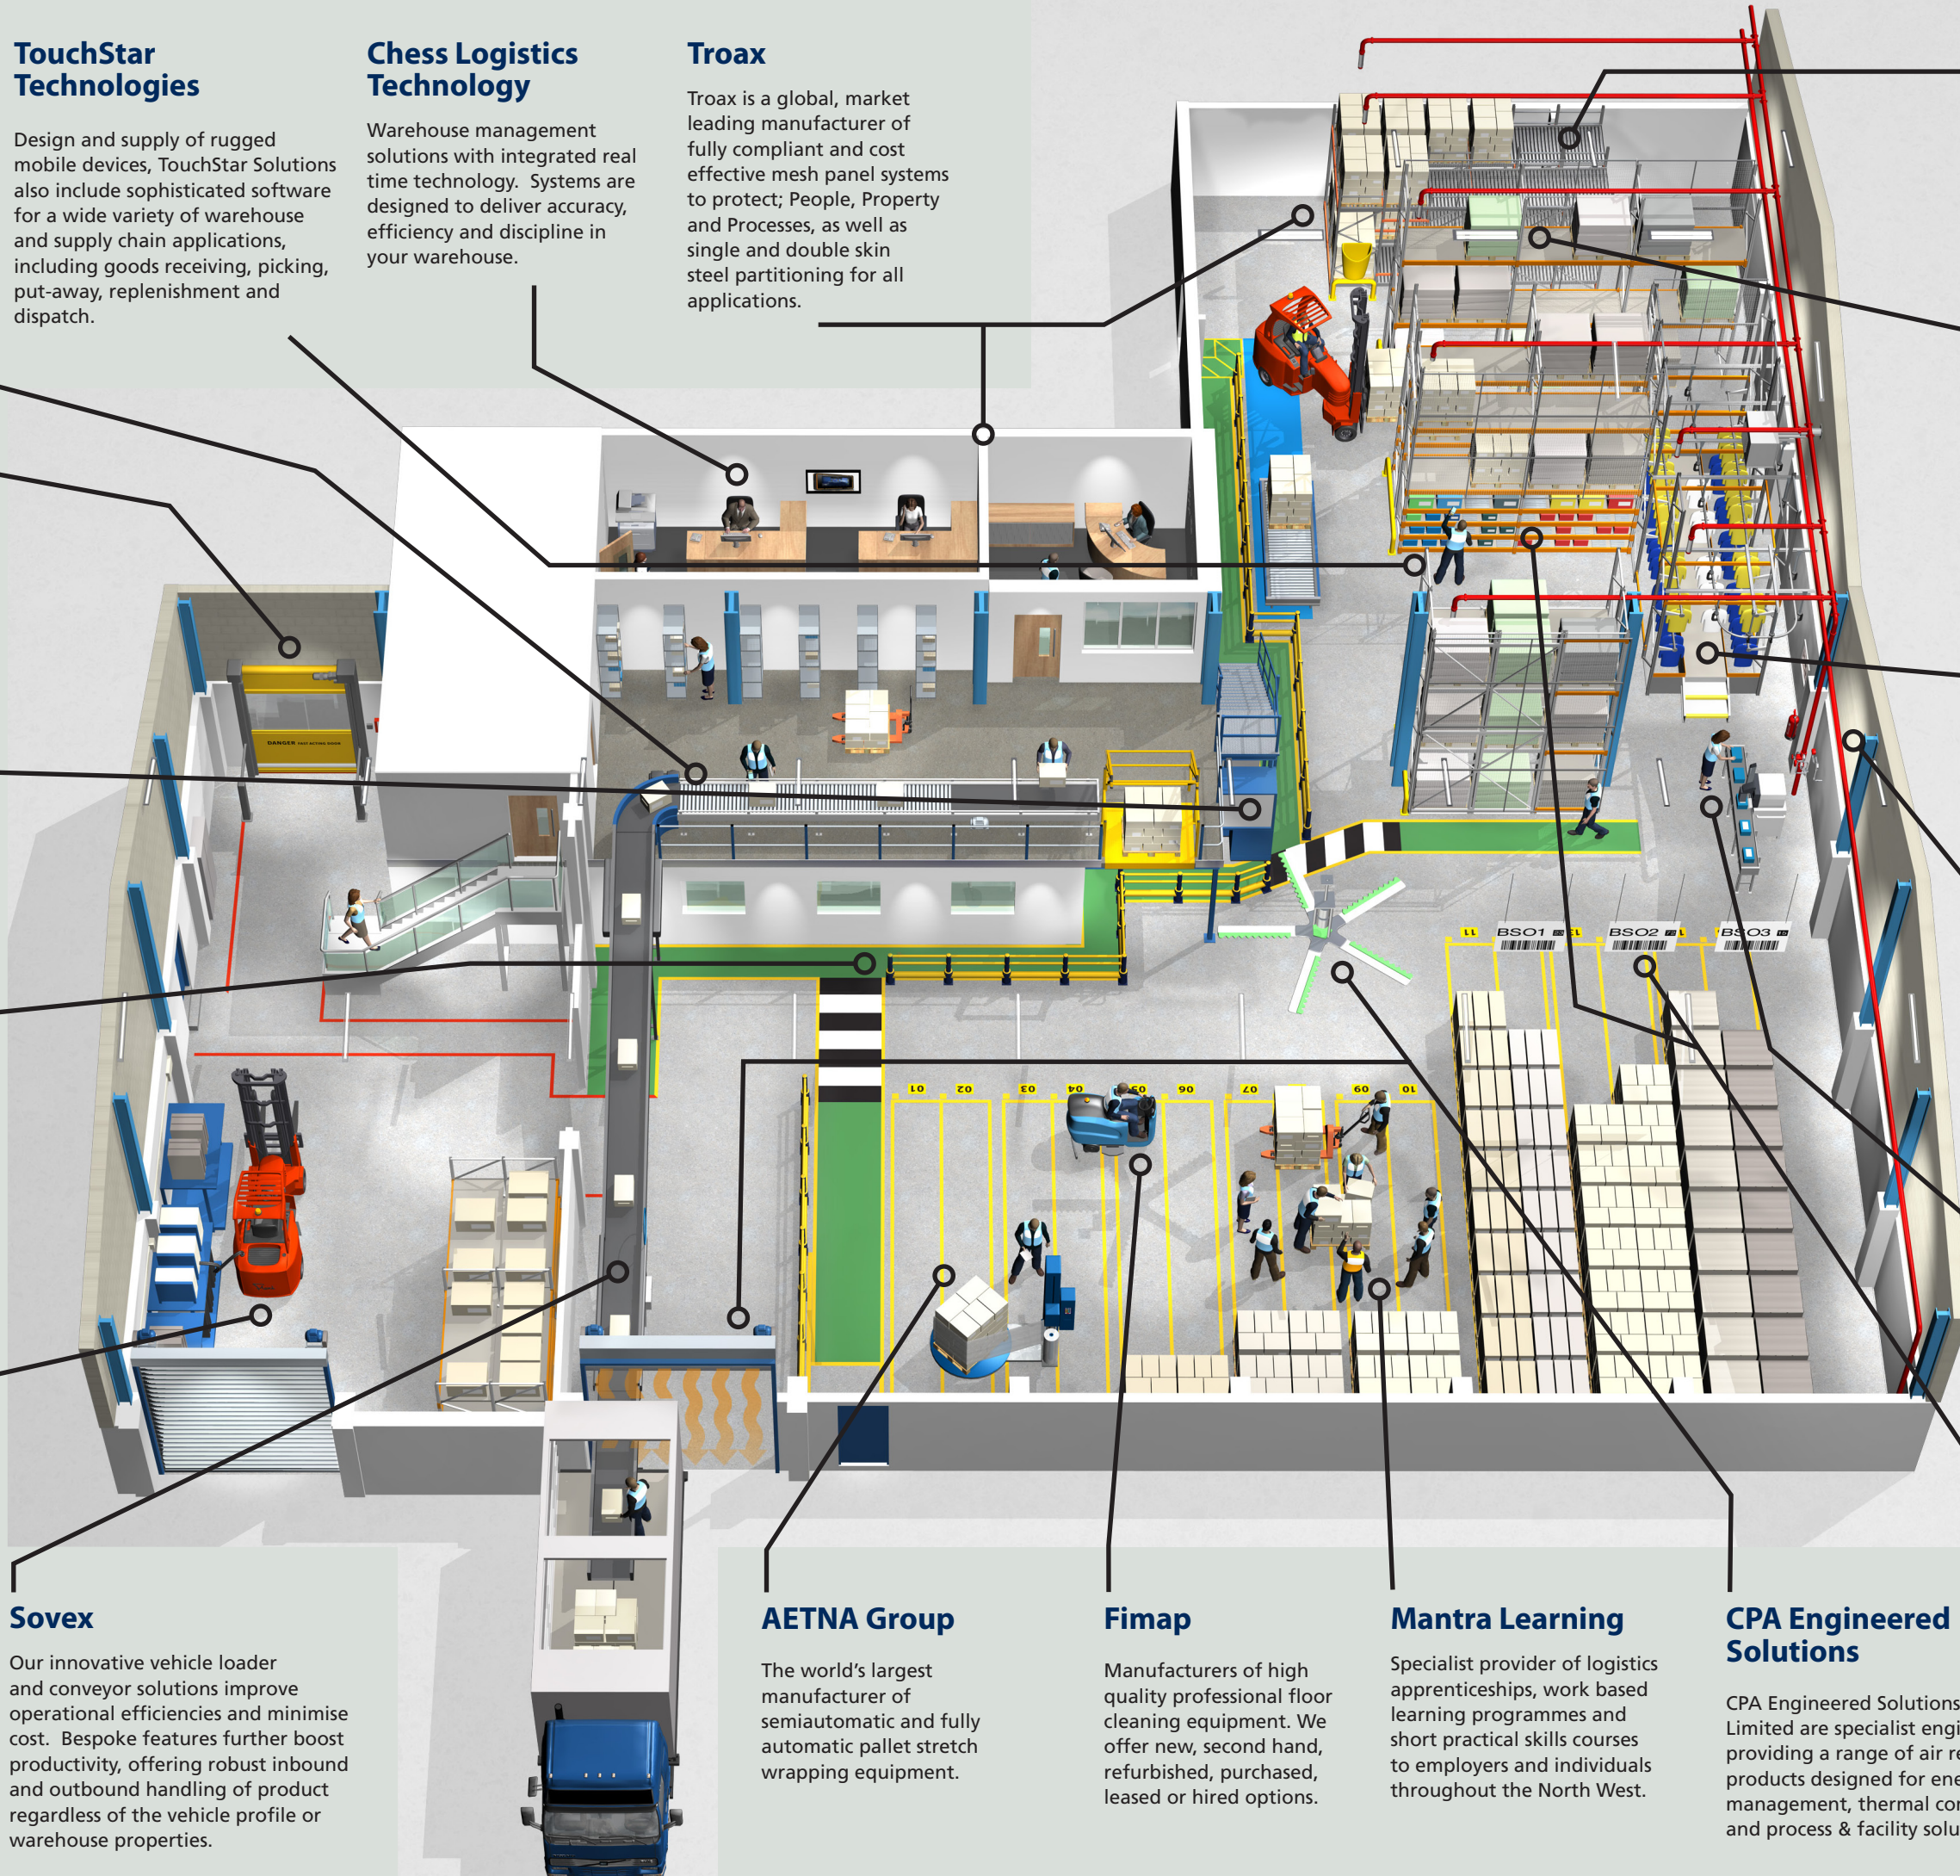

Manufacturers of high quality professional floor cleaning equipment. We offer new, second hand, refurbished, purchased, leased or hired options.

Mantra Learning

Specialist provider of logistics apprenticeships, work based learning programmes and short practical skills courses to employers and individuals throughout the North West.

CPA Engineered Solutions

CPA Engineered Solutions Limited are specialist engineers providing a range of air related products designed for energy management, thermal comfort and process & facility solutions.

A unique collaboration of leading warehousing and logistics companies

The Warehouse Technology Group (WTG) is a unique collaboration of companies involved in the manufacture and supply of specialist equipment to the warehousing and logistics industry. WTG provides an unbiased insight into the latest technology available to companies operating warehouses and distribution centres.

Fully Operational Warehouse

WTG has created a fully working warehouse known as the Logistics Research and Innovation Centre (LRIC). The centre is in North Manchester and comprises a 12,000 square feet unit fitted out by the partners. The equipment is functional, operating and in daily use. Visitors get to see how the technology works in a real world environment.

Accredited Training Environment

LRIC is a fully accredited training environment. Operated by Mantra Learning, learners gain skills in a wide variety of warehouse related activities as well as apprenticeships and vocational qualifications.

Products In Action

Potential customers see the products in action before buying, and learners attending the training centre have the opportunity of hands-on experience, which stands them in good stead for their future careers.
