

Labelling and Safety Solutions

ASG Services

Investment • Technology • Development

At ASG Services we have gained an excellent reputation for providing the most appropriate labelling and safety products to meet the specific requirements of our customers.

By providing a range of products, in each of our specialist fields, we are able to provide the optimum solution for every client from one source.

From our beginning over fifteen years ago we have been constantly developing our products and services.

We have a considerable depth of knowledge in all labelling and industrial floor marking and painting systems specific to the warehousing and distribution industries.

Our success in developing line marking, to provide personnel segregation systems, is complemented by our other safety solutions which include machine guarding and internal security mesh, safety signage, plus barrier and column protection.

Our unique product and service offering is very attractive to companies looking to satisfy all their needs from a single source.

“ Our vision is to be the supplier of choice for warehouse and industrial identification, safety systems and associated products, by offering clients a quality-driven, total solution via multi-channel procurement methods. ”

Tony Gresty | Managing Director – ASG Services

New investment and product development within our comprehensive range of Labelling and Safety Solutions, meets our customer’s needs for **comprehensive and top quality solutions.**

Location Labels

We have a complete range of durable location labels to suit all manufacturers’ types of racking and shelving.

The range of warehouse location labels cover all environments from ambient environments through to cold stores and are all designed, manufactured and installed by our trained staff in the UK.

Floor Marking

ASG Services are market leaders in internal line marking, providing a host of varying grades and methods of line marking products to suit floor designs and durability requirements.

Our Warehouse line marking solutions are both incredibly durable and smarter than any other durable solution available.

Block Stack Solutions

We offer a wide range of block stack identification solutions including, floor location labels, embedded floor labels and tags, hanging signs and barcodes, bus-stop signs and self adhesive floor labels.

As a specialist in warehouse identification, ASG Services design and produce products in-house for customers with specific requirements.

Machine Guarding and Internal Security Fencing

SATECH Modular machine guarding & safety systems are tailored exactly for you Designed & Manufactured to Machinery Directive 2006/42/CE.

ASG Services are here to help. So whatever your needs, however difficult or obscure, do give us a call or drop us an email us.

Safety Signs

We manufacture a range of bespoke internal and external warehouse safety signs for use in a wide area of applications in and around your building.

All warehouse signs can be designed new or developed utilising existing artwork from materials for a variety of applications for short, medium or long term life spans.

Label Holders

Ability to adapt to customer needs is crucial in providing the best customer service possible. We go that extra mile to provide ancillary products such as plastic label holders or ticket holders to be fixed to shelving or racking.

Safety Barriers

Warehouse safety barriers provide vital protection for pedestrians working in busy storage facilities.

Barriers provide protection but more importantly they provide a highly visual means of display which signals to a driver to keep away.

Installation

Installation plays an integral part of the turn key solutions that ASG services have to offer.

When design and production are completed, a fully trained installation team will arrive at the client’s site to professionally install all of its products.

Netting Solutions

Back-of-Rack & In-Flue Safety Netting is an excellent way of preventing injury and product damage at the back of single runs and in the flue of pallet racking. Available from our storage equipment trade division -
